Welcome to Lehigh Cement Delta Plant

Lehigh Northwest Cement Limited, currently the largest producer of Portland cement in the Pacific Northwest, has been in Delta since 1976. The plant employs 130 people and contributes more than \$1.5 million in municipal taxes every year. The Portland cement it produces - more than a million tonnes a year. - is the fundamental ingredient of concrete. And concrete is the material most widely used in our world for building our communities.

THINK SAFETY

1. Please wear hard hats and safety glasses while inside the plant site.
2. Please remain on roadways unless otherwise directed.
3. Be aware of machinery that can start up at any time, as well as mobile equipment traffic.
4. If in doubt, ask a Lehigh Cement employee.
